

JZ-198HD

A Heavy Duty model of the JZ-198 cart has been designed to:

- Increase tamper proofing
- Reinforce – more durable for high abuse environment
- Improve mobility over rough surfaces

The following improvements have been designed in

Stitch weld all hinges to tamper proof. Except for center hinge so door can be removed/repaired

Reinforce both bumpers with carriage bolts so they won't get ripped out easily

Anchor drop down latch to a reinforced center beam so it won't easily pry off/out of shape

Reinforce top corners with TIG weld instead of spot weld

Solar powered digital thermometer to enclose. Encased behind 1/2" thick Lexan and spaced back to protect

Add top bumper to protect the cart going through doorways

Add push/pull handle to heater side

8" multi-terrain casters for rugged terrain

Move castors outboard 1.5" for greater stability
