

User Guide for Eutectic Cold Plates

- Place into a freezer for 12 - 24 hours prior to use
- Best to have a dedicated pair of cold plates for each meal
- Slide plates into the mounted brackets in ambient side of cart 30 minutes before time to load the meal trays
- Keep door closed when not loading or unloading
- All food and/or beverages placed into the ambient cabinet should be chilled prior to loading
- After use, remove and clean the plates and refreeze.

WARNING: Do not use eutectic plates that show signs of damage or leakage.
