

## Self-stacking meal trays

The bottom of each tray acts as the lid for the tray below it. Can stack in stable columns with each compartment sealed off

### Non-Insulated Tray Systems

#### No internal foam insulation

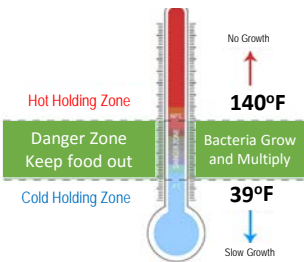

**Pro:** Won't get water logged  
More durable

**Con:** Not insulated  
Won't hold temperatures

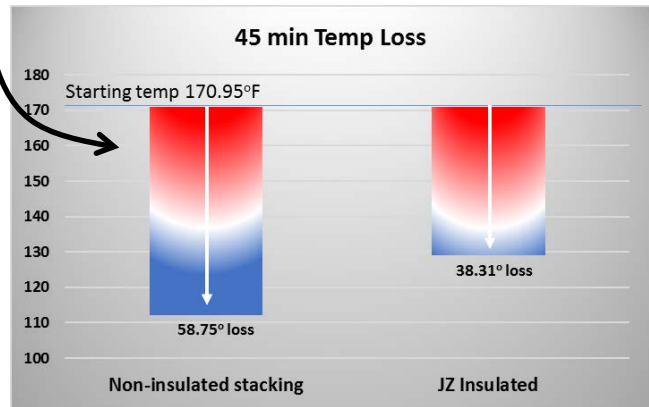

**Solution:** Heated Carts

Tray	Item	Cavity	Dimensions
	Hollow cavity tray is a foam insulated tray with the foam left out. All insulated trays can be ordered this way		
	Rock	5	14.25 x 9.5 x 1.75
	X-tray	5	14.25 x 9.5 x 2.25

- Non-insulated trays lose 53% more temperature than foam insulated trays.
- A starting temp of 165°F would become 106.2°F in 45 min – deeply down in the “danger zone”
- You can slow temp loss with insulated cart (need to consistently deliver within 30-40 min)
- You can take as long as needed with heated carts

Bacteria will double every 20 minutes in the “danger zone”

### Delivery Cart Options

Relative capacities given for Rock tray

**Can consistently deliver less than 35 min**

**Insulated Ambient Carts**

JZA-6UBT-RH  
Capacity: 80

JZA-198  
Capacity: 140

**Can take as long as needed to deliver**

**Heated Carts**

JZH-6UBT-RH  
Capacity: 80

JZH-198  
Capacity: 140

Features removable heater

You can purchase an ambient insulated cart and snap in a heat box later if you decide you actually need a heated cart

## Self-stacking meal trays

The bottom of each tray acts as the lid for the tray below it. Can stack in stable columns with each compartment sealed off

### Foam Insulated Tray Systems

When the internal space of the tray is filled with foam, the insulating properties allow you the full range of cart options

Tray	Item	Cavity	Dimensions
	PRTS-4000	4	14.5x13x3
	PRTS-4001	4	14.5x13x3
	PRTS-5000	5	14x11x2
	PRTS-6000	6	15x13.5x2.5

#### Special Feature

JonesZylon's new insulated trays are the industry's most durable

Competitor

New JonesZylon

### Delivery Cart Options

Relative capacities given for PRTS-5000 tray

#### Can consistently deliver less than 20 min

Open Carts

Standard cart  
Capacity: 102 & 136

Heavy Duty cart  
Capacity: 102 & 136

#### Can consistently deliver less than 35 min

Enclosed Carts

Standard cart  
Capacity: 126

Heavy Duty cart  
Capacity: 136 & 200

#### Can consistently deliver less than 45 min

Insulated Ambient Carts

JZA-6UBT-RH  
Capacity: 52

JZA-198  
Capacity: 120

#### Can take as long as needed to deliver

Heated Carts

JZH-6UBT-RH  
Capacity: 52

Features removable heater

JZH-198  
Capacity: 104
